DEVON CORE VALUES:

Each value is demonstrated day-in and day-out through the actions we take with each other.

INTEGRITY

RELATIONSHIPS

COURAGE

RESULTS

"It was full of very welcoming people that helped me feel comfortable, whether that was to reach out to different departments or sitting in on meetings with people I have never interacted with before. The number of opportunities that Devon creates not only for its employees but for interns, spoke volumes to me and gave me memories I will never forget."

INTERN — LEGAL

"Once in a lifetime opportunity. The amount of knowledge and experience I've gained from this summer could've come from nowhere else. The sense of community as well made me feel super comfortable as well as empowered enough to speak up when needed to."

INTERN — TECHNOLOGY

"I'm filled with gratitude for the opportunities I was given, the amazing professionals that were integral to and intentional with their time in my journey to learn and grow as a young engineer, and the unforgettable laughs and memories that were shared!"
